

Today
It's Dark. Dawn Will Come
Why the Red flower?
Wicked, Wicked Russians
The Fight Racket

By Arthur Brisbane

WALL STREET was not happy yesterday. The price list carried "minus" signs thicker than leaves in the forest, "when autumn hath blown."

Cotton and wheat went to the lowest prices for 1930, and corporation earnings for the third quarter of the year are expected to be the worst thus far.

However, when it is very dark, you may expect the dawn. The man who has most to fear is the one most easily frightened.

Last spring, you may have seen, here, an entire column devoted to the proposition that government buying of wheat would help men who were building grain elevators on speculation.

That proposition, based on facts quite plain, has unfortunately come true. The price of wheat yesterday was the lowest in 24 years.

Secretary Lamont, head of the Department of Commerce, made a bright spot in the picture of raw goods. Big industries, taking advantage of low prices, purchase great quantities of materials.

In August the increase in our exports was more than is customary in that month, and the gain in retail trade at present is more than the normal gain for this season.

Perhaps we really are more frightened than hurt.

Herbert Spencer Dickey saw in South America a tribe of "pale yellow" Indians, named the Quababos. And they supplied information that, he hopes will help him find a tribe of white Indians next year.

The yellow color is interesting, suggesting the alleged coming of Indians from Asia. Mr. Dickey brings back among other interesting animals a red howler monkey.

Why should a monkey be red, why should he howl? Was he made that way originally to amuse Adam and Eve? A red howling monkey must have been a welcome entertainment for a couple that had no movies, radio, talking machine or military golf links.

Science says natural selection made the monkey's color. The red made him hard to see, among the tropical flowers. And he learned to howl, more and more wildly, as he discovered the howling kept away animals that would eat him.

Mr. Cyrus H. K. Curtis, who interests himself in everything from Peking to Peru and all around back to Philadelphia, discovers that the American prize fighting business is "a racket."

He discovered a racket in prize fighting, controlling and manipulating the prize fighters. They "fix" the prize fights, and organize fights, when such seems desirable.

However, why argue about prize fighting and its racket? It is a racket, and it is a racket with bull baiting, bawling, drawing, dog and cock fighting, only worse, and should go to join the others.

In the career of Henry Phillips, who died yesterday, 91 years old, there is a record of the actions of young men. A great majority will not be interested in the man, but here it is.

More than 70 years ago, Henry Phillips, young clerk in a hardware store in Ohio, sold powder to coal miners, other things to other people.

And when work was done, he walked eight miles there and eight miles back to keep books for a blacksmith and iron worker unable to keep books himself.

10 PERISH AS LIGHTNING STRIKES SHIP

NEWFOUNDLAND VESSEL SPLIT IN TWO BY BOIT OFF CAPE BRETON, N. S.

North Sydney, N. S., Sept. 23.—Eight passengers and two of the crew of the Newfoundland schooner Caranza perished Thursday night when the ship was split in two by a bolt of lightning 20 miles west of St. Pierre, Micronesia, off the eastern coast of Cape Breton, N. S., six survivors brought here today said.

The survivors, picked up 75 miles west of St. Pierre, Micronesia, Sunday night, arrived here aboard the schooner Glenlivet. They said the Caranza left here last Thursday for Burin, news details, and passengers who perished, all from Newfoundland, were: Samuel Moulton, Stephen Grand, Frank Lewis and Grand, Joseph Newport, Archie Adams, John C. Cluff, all of Gambia.

The crew, who were: Joseph Newman, Archie Adams, John C. Cluff, all of Gambia. The passengers rescued were: Thomas Cluff and George Aron Garmish and Charles Fleming of Burin.

The members of the crew saved: N. Roberts, mate; Charles Roberts and Alex Mullins.

Mr. Cluff said the ship was hit by lightning in a flash with bull baiting, bawling, drawing, dog and cock fighting, only worse, and should go to join the others.

Coste Finds Mountain Weather Too Rough

Denver, Sept. 23 (AP)—Quester Marie, French transatlantic plane crash in Newfoundland, Costa and Maurice Belton, returned to the Denver Municipal air port today, two hours after it had started for St. Louis.

Coste said the weather was too rough. "It will start again tomorrow morning."

It was the first hitch in the good-will tour of the United States which Costa and Belton started at New York Sept. 22, after their Paris-New York flight.

Eliot Wadsworth Named by Hoover

Washington, Sept. 23 (AP)—President Hoover today appointed Eliot Wadsworth, former assistant secretary of the treasury to represent the American government in conference with Santo Domingo authorities upon the question of reconstruction of the hurricane-swept districts of the island republic.

Hughes Calls Parley of Circuit Judges

Washington, Sept. 23 (AP)—Chief Justice Hughes today called a conference of federal circuit judges to meet next October 1 to discuss the conditions of business in federal courts throughout the country.

Police Lay Tragedy Involving Western Maryland Officials to Murder and Suicide

Baltimore, Sept. 23 (AP)—Maxwell C. Byers, president of the Western Maryland Railway, was found shot and dead and Dudley G. Gray, vice-president, seriously wounded, in the railway executive offices today shortly after employees heard sounds of firing.

Gray Dying, Too

On the floor beside Gray was a bullet wound in his right chest. A clerk was taken to a hospital suffering from severe cuts sustained when he broke the glass door to gain entrance to the executive office.

Gray was rushed to a hospital and placed immediately on an operating table in an effort to save his life after last rites had been administered by a priest.

Physicians held little hope for his recovery. He was semi-conscious and efforts to question him were unsatisfactory.

Gray, 61 years old, came to Baltimore in 1914, one year after he became connected with the railroad. He started his railroad career with the Baltimore & Ohio after attending public schools in his native state, Ohio, and attending Ohio State University.

Gray was married to a woman named Mary. They had three children. Gray was a member of the Baltimore & Ohio board of directors.

Gray was elected president of the United Pacific. He was a member of the Baltimore & Ohio board of directors.

VON ELM LEADS AMATEUR GOLF

Former Champion Shoots a 70 to Post Total Score of 143

Merion Cricket Club, Ardmore, Pa., Sept. 23 (AP)—Playing what he has announced as his amateur tournament was von Elm, former champion, shot a brilliant 70, even par, today to assume the lead in the battle for the qualifying medal of the national amateur golf championship.

He had a 36-hole two-day total of 143, one stroke short of the record. Von Elm's score took the pace-setting role away from George T. Jones, who had a 71 in the early part of the tournament.

Johnston Out in 37 and Back in 36

Johnston was out in 37 and back in 36, shooting five birdies to offset the few mistakes he made. His putting, which came close to knocking him out of the tournament yesterday, was much improved today.

Chicago Lauds Hearst's Patriotism and Invites Him to Be Guest of City

CHICAGO, SEPT. 23.—WILLIAM RANDOLPH HEARST has been invited to be the official guest of the city of Chicago.

The invitation is contained in a resolution passed by the City Council yesterday afternoon. The resolution follows:

"WHEREAS, Mr. William Randolph Hearst, long recognized as one of the foremost Americans of our time, has returned to this country from a trip to Europe, where he received in all but one country he visited signal honors due him because of his high position; and

"WHEREAS, because of his devotion to American principles and his service to this nation two years ago in publishing, for the protection of his country, a secret document revealing Anglo-French naval relations, the French government recently requested him to leave France; and

"WHEREAS, the citizens of New York and Boston, by public receptions and official resolutions, have demonstrated their enthusiastic approval of Mr. Hearst in his position regarding foreign entangling alliances and secret diplomatic treaties, and have evidenced in unmistakable terms their resentment of the act of the French government in expelling this distinguished American for the sole reason that he told the people of his country the truth about international matters vitally affecting them; and

PAN-AMERICAN CONFERENCE NEEDED TO STAMP OUT DRUG EVIL

HOPE LOST IN LEAGUE OF NATIONS

United States Must Take Lead to Check Manufacture of Narcotics

By KENNETH CLARK
Universal Service Special Cable
(For 10 years the League of Nations has been dealing with the dope problem without any material beneficial results. Certain nations of Europe interested in the vast profits obtainable through the sale of narcotic drugs have blunted every effort for concerted action at Geneva. The Hearst newspapers now propose a Pan-American conference on the subject. Such a move would enable the United States, acting collectively with the Pan-American countries, to force the league's proposed narcotic conference and dictate the terms of a convention to limit manufacture. The opium bloc would be unhinged. Following is the first of four articles dealing with the growing problem.)

Geneva, Sept. 23—The nations victimized by dope look to the United States to lead them out of opium slavery. They have lost hope in the League of Nations.

Victim countries are those which, though not manufacturing drugs, are nevertheless flooded with the deadly poison produced in the manufacturing countries, chiefly in Europe, in quantities exceeding medical requirements.

SMUGGLED IN TONS

The United States is a victim of this overmanufacture. Though America has enacted strict domestic laws to control the dope traffic, tons of drugs continue to be smuggled into the United States each year.

Thousands of new addicts are created. Traffickers reap fabulous fortunes. American officials admit it is impossible for the United States, acting alone, to dam the flow of drugs. No matter how high the barriers are raised, dope leaks through.

It's the medicinal opium requirements are estimated at about 250 tons annually. The world's annual production is roughly 3,000 tons. Thus about 2,750 tons of dope each year go to debauch and kill innocent victims all over the world.

How staggering this figure is may be realized from the fact that the average medical dose of morphine is but one-sixteenth of a grain. The over-manufacture in one year alone is stated to be sufficient to supply the legitimate medical needs for drugs for 20 years.

Every year's delay in ending this over-manufacture causes untold suffering and death. No nation is immune. In Egypt alone, government authorities report, 500,000 new addicts have been created since the league undertook to end the evil.

What has happened in Egypt has happened, on a greater or lesser scale, in other countries. Over-manufactured dope finds a market or it would not be made.

The dope gangs, whether they be governments or individuals, are not in the business for pleasure. They recognize but one God—profit.

LOOK TO AMERICA

During the past 10 years the league has supposedly been directing the international efforts to curb the evil. What is the result? One result has been that under league leadership the fight against narcotics—the fight to save human lives from a plague that exacts a greater toll than any war or pestilence—has retreated.

That is why the victim countries, individually helpless before the avalanche, look appealingly to the United States and her sister nations of America. "They look to the United States, free of the influence of the league's opium bloc, to carry forward vigorously the fight it led until the league 'put on the brakes'."

N. A. 'DEM'S' ARE SPLIT ON RUM

Concord, N. H., Sept. 23 (AP)—The Democratic state convention opened here today for adoption of a party platform and forming of a state committee, with prohibition looming as the most probable cause of controversy.

The resolution calls for "submitting to the legislatures of the several states an amendment to the constitution of the United States, which, if adopted, will permit the people of each state to vote on whether the sale of alcoholic beverages in such state shall be permitted, such sale to be solely under the supervision of a highway connecting Washington, D. C., with the Atlantic coast."

Senator William D. Tyng of Maryland was the keynote speaker.

Photo shows Officer Benton Hall and Police Chief Thom as J. Chrysler of Exeter at the spot where Lacavita's body was found in the ruins of Meekins' house.

YOUNG RASKOB IN CHELMSFORD

Lowell, Sept. 23—John J. Raskob, son of the millionaire head of General Motors Co., whose engagement to Miss Minerva Aaronson, a pretty secretary in New Haven, was announced a few days ago, was found today conducting secret chemical experiments in the old Silecia Mill in North Chelmsford.

Young Raskob is reported to be experimenting with a material known as "chinquilla," said to be textile cottons to bear the same relation to linen that rayon does to silk.

Raskob's laboratory work is, it is said, the greatest secret. Only those employed in the building are admitted. Raskob is said to have been talking there for days.

His identity unknown to most of those on the premises. Raskob is a member of a recently-organized firm known as the Great Fibre Corporation, which has leased the old Silecia mill property there for three months to carry on experiments.

The son of the automobile magnate, who managed Al Smith's presidential campaign, has been engaged in textile research since he was graduated from Sheffield scientific school at Yale last June.

Stick Hurler by Saw Kills Father of Five
Worcester, Sept. 23—A hurtling stick, thrown by a circular saw, brought death to John McDevine, 46, of South st. today, at the American Steel and Wire works. Grover Meduskie, father of five children, was struck in the side. Internal hemorrhage caused his death a few minutes later.

Mussolini Goes at 81 Miles an Hour to Show 'Speed'

Rome, Sept. 23 (AP)—Benito Mussolini today demonstrated how fast he can drive an automobile. After inspecting the new public works he had to hurry to Ostia, where he was to help inaugurate a new motorist park.

On the return trip, LaRocca said, he stopped and demanded he be paid and in a fight that followed he was severely slashed. LaRocca slurred for help when the taxi reached the American customs station at Swanston and he was taken to a hospital.

The three passengers were brought to Franklin County Jail here and held on drunkenness charges.

The domestic help problem is noted by taking a short-term apartment. The ad is advertised daily in the "Star Bulletin."

CABMAN KNIFED, 3 ARRESTED

St. Albans, Vt., Sept. 23 (AP)—John LaRocca, Troy, N. Y., taxicab driver, was in a local hospital today suffering from knife wounds suffered in a fight that followed his demand that three passengers pay their fares. LaRocca told police he was asked last night by Steve Boyranton of Troy to drive him to the Milton, where he picked up George Miller and Frank Bonney and all rode over the border to Canada.

On the return trip, LaRocca said, he stopped and demanded he be paid and in a fight that followed he was severely slashed. LaRocca slurred for help when the taxi reached the American customs station at Swanston and he was taken to a hospital.

The three passengers were brought to Franklin County Jail here and held on drunkenness charges.

The domestic help problem is noted by taking a short-term apartment. The ad is advertised daily in the "Star Bulletin."

Horsechestnut Tree Gets Frisky, Turns Out New Brand

Agawam, Sept. 23 (AP)—A horsechestnut tree owned by Edward J. Austin of this town has turned modernistic. Beside "turning" the ordinary horsechestnut it is yielding another of an entirely different sort.

There are fully half as large again as the ordinary kind, without spines, light brown and ruffled into three sections. Each section contains three nuts, or else in each husk.

Mr. Austin says the tree has always behaved until this year.

The domestic help problem is noted by taking a short-term apartment. The ad is advertised daily in the "Star Bulletin."

GIRL IN 'GLASS LUNG' GAINING

Chicago, Sept. 23 (AP)—Miss Frances Melican, 25-year-old student nurse, who is living with the aid of a respirator at a Chicago hospital, tomorrow will complete two weeks in the glass and aluminum "lung." By this means she has kept alive since Sept. 11, when a family paralytic impaired the function of her chest muscles.

"Miss Melican has gained considerable strength in the last 24 hours," hospital officials said today. "She had seven hours of normal sleep last night, is eating substantial food in good quantities, and is responding to treatment most satisfactorily."

"It will be some time before she will have enough strength, however, to breathe without aid. Attendants remove her only for a few minutes at a time, and she has great difficulty in breathing."

Missing Girl Is Back
Goffstown, N. H., Sept. 23—Ruth Wilson, 15-year-old high school girl, missing from home since last Thursday, returned home last night.

"See America" Will Cover the World

Washington, Sept. 23—"See America" advertisements will flood foreign lands and the slogan will be broadcast through the United States under a bill which Representative Leonard C. Dyer (R.) of Missouri will press for passage.

The forthcoming session of Congress, as a part of the program, Dyer endorsed the proposal of the American Overseas Highway connecting Washington, D. C., with the Atlantic coast.

'Buddy' Rogers Will Ride in Style Now

Lathe, Kans., Sept. 23 (AP)—His elevation to the rank of star among moving picture actors having changed the situation considerably, Charles (Buddy) Rogers is planning a second trip to Europe.

His wife and two followers, the star's manager, will sail from Vancouver Oct. 8, stopping at Honolulu and then proceeding to Japan.

Voliva Runs Round to Prove World Flat

Zion, Ill., Sept. 23 (NS)—Sent on refuting the expert theories of Christopher Columbus and others, Voliva and his party, he explains, will not really go around the world, but will travel a circle over the earth's flat surface.

With his wife and two followers, the star's manager, will sail from Vancouver Oct. 8, stopping at Honolulu and then proceeding to Japan.

Train Kills 2 IN BROOKFIELD

Brookfield, Sept. 23—Two section hands were killed today when the Springfield to Boston passenger train struck them as they left a section of track they were working on.

They were Arthur Picher, 40, of Lawrence, and Angelo Senella, 25, address unknown. They were members of a gang of 60 at work in the Brookfield section, where the train that left Springfield at 6:45 came through. The other men had left the track some few minutes before.

40 SAVED FROM STORK HOVERS WRECKED SHIP IN TORCH CASE

Peterhead, Scotland, Sept. 23 (NS)—Forty members of the crew of the British steamer City of Oakes were rescued by means of stretchers today a few hours after the vessel went ashore on the rocky northeast coast of Scotland, six miles south of Buchanan, off Aberdeen.

The City of Oakes was established to the vessel's deck by a lifeboat which put out for assistance on receipt of an SOS. The remaining 40 members of the crew were expected to be rescued by the same means shortly.

The City of Oakes was bound for New York when she was driven ashore. There were no passengers aboard.

12 Taken Off Stranded Steamer by Breaches Buoy
Gymnast, Eng., Sept. 23 (NS)—The crew of the Antwerp steamer Ida, 12 men, were brought ashore on a breaches buoy today when the vessel went on the rocks off Pwllheli.

Brookfield, Sept. 23—Two section hands were killed today when the Springfield to Boston passenger train struck them as they left a section of track they were working on.

They were Arthur Picher, 40, of Lawrence, and Angelo Senella, 25, address unknown. They were members of a gang of 60 at work in the Brookfield section, where the train that left Springfield at 6:45 came through. The other men had left the track some few minutes before.

The men were placed in the baggage car of the train. Picher killed by the train. The other man was killed by the train.

Bank Robbers Loot 3 to Keep Up Record

Chicago, Sept. 23 (AP)—Three bank robbers in the plains states, approximately \$12,000 was stolen yesterday in three banks. The robbers brought the average for September.

Two robbers took \$7000 from the First National Bank of Chicago. Two men held up the First National Bank of Montgomery, Minn., and got \$1200, oversteering \$5000. Two more robbers hit the State Bank at Carlton, Ill., and got \$4000.

DYER PREDICTS LEGALIZING OF 2.75 BEER

Washington, Sept. 22.—President Hoover's law enforcement commission will recommend beer of 2.75 per cent alcoholic content, Representative Leonidas C. Dyer (R.) of Missouri, predicted today.

Beer of this alcoholic content will be proposed as a remedy for the conditions brought about by prohibition, in Dyer's opinion.

An investigation of the beer proposal is now being made by investigators for the commission. Dyer said he had been informed. People in all walks of life are being questioned as to the wisdom of legalizing 2.75 beer.

BLOW TO BOOTLEGGER
Dyer personally appeared before the commission in secret session during the last session of Congress and urged an investigation of the beer proposal.

In an interview with Universal Service, Dyer said:

"I firmly believe that the commission will recommend 2.75 per cent beer, because it is an able commission, composed of foremost citizens."

"I believe they will agree with hundreds of thousands of other citizens that by legalizing 2.75 beer, much would be accomplished toward suppressing the bootlegging traffic in hard liquor."

"While I am not at liberty to give names, I know that prominent dyes also are of that opinion."

"Beer of 2.75 per cent alcoholic content is not intoxicating. Courts would not construe it as intoxicating. It is palatable and would satisfy a large percentage of the population."

NO FEAR FROM COURTS
"The Eighteenth Amendment prohibits manufacture, sale, etc., of intoxicating liquor, except for medicinal purposes. Thus, 2.75 beer could be legalized by Congress without fear of the Supreme Court holding the act unconstitutional."

"Under my bill permits would be issued for the manufacture of such beer. It could be sold generally as a beverage, but I would forbid its consumption where bought. This would prevent restriction of the saloon."

"Passage of my bill, with the backing of the Wickersham commission and President Hoover would be a sound, sensible remedy for present conditions."

Rumanians Send Back Bomb Suspect
Warsaw, Poland, Sept. 22 (AP).—Jugoslavians authorities have arrested Jjan Poljanec, accused of the bomb attempt in the Soviet Union last April. He was turned over to the Rumanians in view of his statement that he is a Rumanian citizen, but was sent back to Poland as his Rumanian citizenship has never been proved.

No Incinerator
Lowell, Sept. 22.—Agitation for a garbage incinerator was indefinitely postponed last night by the board of health.

An Easy, Quick Get-Away

It's a hectic job getting daddy off to work and the children off to school with a nourishing breakfast. Everything is calm and placid when Shredded Wheat is served. It's ready-cooked, ready-to-eat. Heat the biscuits in the oven a few moments to restore their crispness, then pour milk over them. They contain all the energizing elements of the whole wheat grain—and are so palatable and easy to digest. Delicious with fruit.

Plight of Miners Told by Labor Head

Truro, N. S., Sept. 22.—Following an investigation of unemployment conditions at Sydney Mines, Thomas W. Martin, Eastern representative of the Federal Department of Labor, said he had found whole families existing on one loaf of bread as a day's food supply. He said he found a miner with only half a turnip for sustenance.

Martin said conditions in Cape Breton were much worse than he expected to find them and suggested that the churches of this city make efforts to give aid.

Farmers Need Peace

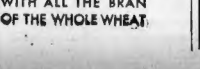

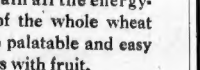

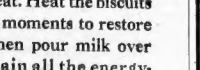

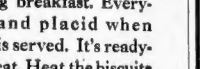

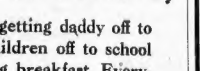

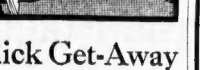

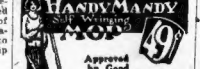

Paris, Sept. 22 (US).—Peace as the need of the farmer was stressed yesterday by ex-Premier Paul Painlevé addressing the Agricultural Society at Breton.

A Certainty—Instead of a Speculation

Few things are more annoying to the "manager of the home" than erratic ice service. Regular delivery by The Boston Ice Company is a certainty—not a speculation. That is perhaps why The Boston Ice Company has so many enthusiastic friends among women who direct their homes efficiently.

Every day—at the same hour—almost at the same minute—a member of The Boston Ice Company delivery corps appears cheerfully with his block of sparkling, diamond-clear ice. No need to wait and wonder in any month, when The Boston Ice Company knows your ice requirements. You can be certain—no matter what the weather—of a regular supply of this pure, transparent ice.

The Boston ICE Company

Blaze Imperils Lumber Stock

One and one-half million feet of lumber were threatened by a large brush fire late yesterday, which started at the end of Smith pl., North Cambridge and swept across a two-acre lot to the edge of the Nixey red cedar lumber yard before it was brought under control.

Broening to Oppose Governor Ritchie

Baltimore, Sept. 22 (US).—Mayor William F. Broening, of Baltimore, has been nominated by the Republican State convention to oppose Governor Albert C. Ritchie, who is seeking his fourth term.

The domestic help problem is solved by taking a kitchenmaid apartment and the best are advertised daily in the For Rent column.

Autumn Makes Its Entry Today

Old Man Autumn puts in his official appearance for 1930 at exactly 1:37 p. m. today and the weather man says that there isn't even a trace of a cold spell in sight. It may, the prognosticator declares, be just a little cooler tonight than it was last night, but there will be a warmth in the air.

Planes Search for Missing Aviator

Prince Albert, Sask., Sept. 22.—Several planes flew low over Saskatchewan's northern barrens yesterday, looking for Mike Finland, Consolidated Mining and Smelting Company aviator-geologist, who has been unreported since he took off from Lac la Poudre for Wollaston Lake, nearly 400 miles north of here, last Tuesday.

Mrs. Ashford, Sacred Song Writer, Is Dead

Nashville, Tenn., Sept. 22.—Mrs. Emma Louise Ashford, 80, noted composer of sacred music, is dead at her home here today.

Among the best known are "Abide With Me," "My Task," "Lift Up Your Heads," and a Christmas carol, "Christ Is Risen."

Defects Found in 74,785 Cars

Concord, N. H., Sept. 22.—John F. Griffin, State commissioner of motor vehicles, announced yesterday that in the save-a-life campaign for highway safety 72,907 automobiles have been inspected by official agencies in New Hampshire and defects of one sort or another found in all but 18,122.

The total registration in the state is about 108,000.

LETTERS FROM AMERICAN READERS

Letters from readers on current subjects are welcomed. Letters should not exceed 250 words in length, should be written on one side of the paper, and must bear the writer's name. Names will be omitted in publication, if requested. Address Editor, Boston American, 5 Washington sq.

Martin F. Kelly

Desires Sending Cards

Editor Boston American:

Allow me this opportunity to state through your column to the voters of Ward 11 that I am a card bearing the signature of "Martin Kelly" signed in pencil and received by the voters at the last hour on September 15 were not signed or sent out by me. Martin F. Kelly, candidate from Ward 11.

I had not requested the voters of my district to vote for William F. Madden, the successful candidate, as these cards stated, and had no part in this transaction. I remained in the contest to the end.

This was undoubtedly a scheme to mislead people of Ward 11 and no confusion then, giving me no time to deny that I had any part in the affair. There was no address on any of these cards and I am a life-long resident of 181 Center st., Roxbury.

MARTIN F. KELLY.

Find Injustice in

Auto Insurance Law

Editor Boston American:

You are great for justice, so I wonder if you would be interested in hearing a case of auto-insurance. I am the father of nine children, working half-time, drive a \$50 car back and forth to work which I pay \$44 insurance. My boy of 15 bought a second-hand car and took his mother for a ride just before Christmas last year. Although a good driver he was suddenly crowded by a truck to the curb and into an iron post. The mother, who had just come to work to help out on the family expenses, was taken from the car with a broken thumb, broken knee and disfigured about the face for life. The car was a total loss.

I took the matter up with the insurance company for my boy, and they claimed they were not responsible, but one of their employees suggested that I sue the driver of the truck that drove my son into the curb. I consulted a lawyer, and he wrote letters to the truck's insurance company, which they refused to notice at all.

Now the lawyer wants \$10 to enter the suit, and because I haven't got the money, the suit will not be entered. Can you tell me old Boston American, whether how to get "Auto Insurance Justice" out of this affair?

Praises American

and Harding Cartoon

Editor Boston American:

I am going to do something that I very seldom do, but I feel an urge to write to you and congratulate you on the "Harding" picture and the accompanying editorial in Thursday's American. I think it is one of the finest and sanest articles that I have read on the subject of the needs just such consideration. It impressed me very much because Thursday afternoon I had been speaking with one of the postal employees and we talked over a very subject. Certainly the Boston American deserves congratulations for such a courageous and straightforward stand on a matter—and it is to be more evidence of the really fine and sane editorials that consistently appear in the American.

Allow me to congratulate you in my own name and in that of countless others. And let me add that I hope this editorial and picture will be broadcast through the country.

I agree with you and say "No, you can't beat it." It seems that the Klan, through some of his officials, has the unhappy faculty of speaking big, but acting very small. And by a constant repetition of such a course he is fast becoming the respect of many. And it is a shame that many of those in higher places fail to sense the danger line, and fall to realize that in a great measure they are responsible for our ideas approach to that danger line.

P. M. F.

Study of House Fly

Wins Girl Degree

Editor Boston American:

The study of the house fly, watching it daily, paying out its secret habits, has been the work of Miss McIlhenny, Dayton, O., the degree of master of science from the Ohio State University. There are no flies on her. Before she began the study of entomology she did nothing but read the fly. Then she began her work in real earnest. She had her eyes upon 3000 house flies. They did not escape her attention. She became fully acquainted with their habits. She noticed what they did and discovered they were not wholly unclean. But they must be destroyed. They must be the cause of many diseases, probably infantile paralysis. The flies in her laboratory began to know her, but she always recognized them with a sweet after she found out their tricks. Hence the degree of science.

SOMETHING TO THINK ABOUT

Editor Boston American:

That reference in your letter column about the Zink Library. Let me, however, having the sign over its door as proposed by the founder, "No Woman Admitted," makes me urge this matter: If we women are going to prove ourselves worthy of positions of responsibility, we must give up multiplying women's organizations. If we are to break the prejudices that still deny to women simply because they are women the right to certain trades and occupations, or to enjoy certain high offices and honors now reserved for men, we must give up the idea of isolating ourselves in women's organizations.

This tends to perpetuate old antagonisms, old arguments, as if questions to be discussed were merely women's questions. In short, we need more organizations, national, civic and social, made up of both sexes. We vote with the men and we should be in organizations to co-operate with the men and to give them some information at close range about the ideals of womanhood.

MRS. T. Y. LEE.

Bible fame never moved a miracle

while in the historic den.

He went into that den as calm as a cucumber, stood his ground, undisturbed, probably, and by his keenness shut the mouths of the Jews. His attitude, it was just simple reasonableness. This may be a small matter, but to mark Daniel's deliverance of old is as much a misrepresentation of Daniel as to say that George Washington did not cross the Delaware.

R. N. MOONEY.

Visions Now Haven Road

Run by Electricity

Editor Boston American:

It is not to be seen within two years the trains on the New Haven road from Boston to New Haven run by electricity. This may not be the time to urge it in public, because of the economic condition, but even now it will be a great improvement in the power of electricity may be made known, but even with that knowledge we have these improvements in railroad travel, perhaps better and more extended travel.

Railroads will control traveling for some time to come. Aviation cannot be expected to compete with the advanced methods of transportation that are being made known in the new appliances of railroads though many people have dropped their fear of traveling by air.

N. M. BELBIN.

Americans Seizing

German Advantages

Editor Boston American:

It is said 80,000 Americans crossed the Atlantic and visited Berlin in the last six months. Barely 6000 Britons made the same trip in the same time. Americans are looking ahead. Germany of today is different from Germany of 12 years or more ago.

It takes an American a short time to think of possibilities of trade and commerce and then proceed to action.

A Britisher must chew the rag longer. He allows himself to think longer over measures which should appeal to him at once. But here let it be said that the younger generation of Britishes are forward looking.

They are taking upon themselves the task of cementing more vital relation between themselves and continental neighbors.

They are looking for something which offers circles seem capable of initiating or maintaining. America still means opportunity, first urged by Ralph W. Emerson. M. McKEEN.

Says Some Still

Cling to Old-Time Ideas

Editor Boston American:

That letter about Thomas Jefferson in your letter column advocating democratic ideas as the foundation of this republic calls to mind what John Cotton, minister of the First Church in Boston, sprang upon his generation, these words said in 1688: "Democracy is not a fit government either for church or commonwealth."

Some of his descendants are still clinging to the idea. JOHN H. PERKINS.

Curator's Taming

Lion Amuses Bible Students

Editor Boston American:

It was amusing to Bible students to read in the newspapers about the lion and how Daniel Heckins, curator, put him back in his cage after roaming around near the Boston and Maine R.R. Then headlines came out that a modern Daniel defied the wandering lion.

Well, look here! Daniel of

What can be done

with Life Insurance

(2) Replacement of

TERMINATION

IF WHEN personal income is ended for death or disability for the income is withdrawn, no obligation is incurred.

I usually, the house must be sold, and the proceeds, and the customary living expenses.

Under satisfactory arrangements the proceeds of the policy may be used to replace the income of the family.

Through Life Insurance, a plan may be made payable to the family at definite intervals, to take the place of the regular income of the family, and to supply them with the comforts and necessities of life.

Mexico Planning to Dig Up 'Avenue of the Dead'

Mexico City, (AP)—If means are found within the Government's economy program, work of unearthing the "avenue of the dead," the Teotihuacan archeological zone will be begun soon, with the object of bringing to light what may be one of the most interesting monuments of antiquity in Mexico.

The avenue extends from the pre-Aztec citadel to the Pyramid of the Moon and is believed to have been lined on both sides with buildings.

The citadel was uncovered some years ago. The zone is an hour's drive from Mexico City and dates back to an unknown era, even the Aztecs who dwelt near the zone at the time of the Spanish conquest having been ignorant of its origin.

The Pyramid of the Sun, larger in mass than the Egyptian pyramids, although not so high, was lined on both sides with buildings.

Legion Adjutants To Be Entertained

To all of the 30 or more department adjutants of the American Legion, who form a fraternal organization known as the "Legion," State Adj. Dennis H. Haverly of Massachusetts sent a letter yesterday, informing them of the entertainment scheduled for the benefit.

On Oct. 4, two days before the opening of the national convention in Boston, the state adjutants will entertain Monday and Tuesday, and a dinner near Worcester.

Tom Thumb Courses Trap Connecticut Blue Law

Hartford, Ct., Sept. 23 (AP)—Connecticut's ancient Blue Laws today faced the challenge of the modern Tom Thumb golf course as a temporary injunction restraining Hartford police from interfering with Sunday operation of the miniature courses was granted.

Application for the injunction followed arrest of seven operators for violation of the so-called Sunday law. The seven men were arrested Monday and their cases continued until Friday. Then Felix

Pazzano, one of the operators, applied for the temporary restraining order, which was granted by Judge Edward M. Youngs of the superior court. A hearing of the injunction to make the temporary permanent will be held Friday.

The operators contend miniature golf is sanctioned by the revised Sunday statutes, which allow amateur games so long as they do not interfere with public worship, or disturb the reasonable comfort, quiet or peace of any person.

BARE LIFE OF EARLY TROUPE

CHINESE STAR VIENNA HIT

What's become of Anna May Wong? Jameson Thomas brought news of the Chinese actress when the arrival of the new Hollywood to engage in picture work.

The Englishman and Anna May worked together in "Piccadilly," one of the best foreign films made to date. Following this, the Chinese girl made some success on the stage in London. Her voice was too Americanized to suit theater audiences in England, so she went to Vienna, and

Earl Carroll Sketch Book is announced for the Shubert starting Monday, October 6.
Jane Cowl in "When Hell Frize" will be the attraction at the Wilbur starting next Monday.
"Uncle Vanya" will move into the Plymouth on Monday.

Police often declare that all these features spell "bad office"; but they are not. The film is a masterpiece of timing, its local grandeur, its scale at the Mollis last night. All of its scenes are laid in a car in the city of New York, in a room which an ingeniously committed murder is committed and its solution is unraveled. The featured player is Edward Ellis, "Subway Express" will be reviewed in tomorrow's American.

better than we do.

BIG WHALE ATTRACTS CROWDS

The interest being displayed by both adult and youthful Boston in the captive whale exhibition, on view alongside Mechanics Building in Huntington ave., continues unabated, and Capt. A. E. Folger, in charge of the display, states that in no city has a more intelligent interest been apparent. This undoubtedly is due to the fact that New England has been the background for innumerable sagas of the monster sea mammals.

When the whale was captured off the Catalina Islands in the Pacific, its vast size of 55 feet and its bulk of 68 tons gave officials of the Pacific Whaling Company the idea that it would make an interesting sight for hundreds of thousands who had never seen a real whale. The problem was to prepare it so that it would remain in a state of perfect preservation indefinitely, and also out of transportation.

Los Angeles scientists were called in and with the assistance of chemists a preparation was worked out that would harden the blubber and skin and be potent for many years. Three thousand gallons of the liquid was injected into the main arteries under the supervision of the California state health department. The result was a perfectly embalmed whale, looking exactly as it did when it was dragged from the waters of the Pacific.

The problem of transporting it around the country was solved by a special steel freight car 70 feet long, built under the supervision of engineering and railroad experts. Then a huge plate glass housing was constructed. Next specimens of various marine life, including an octopus or devil fish were added, and a special photographic display of the various operations entailed in capturing one of the leviathans of the deep was installed and the exhibit was ready for travel.

From the first it was greeted with widespread interest. Schools were taken to the display in a body and given a lesson that was far more interesting and much more apt to be retained in youthful minds than by all the classroom talks or textbook pictures in the world. Adults who had read "Moby Dick" and other whaling literature shared the enthusiasm of the sons and daughters. It will be here for but a limited time.

Stage Who's Who

Joyce Carey, seen as Olivia in support of Jane Cowie in "Twelfth Night," at the Wilbur, is at home in this Shakespearean play since, as an English-trained actress, she has had ample experience acting in the bard's plays.

A daughter of an acting family—Gerald Lawrence and Lillian Brathwaite are her parents—she made her stage debut at the age of 17 as Princess Katherine in a London production of "Henry V." For a whole summer she played leading parts in the Shakespeare festival theater at Stratford-on-Avon. In the West End theater of London she has played Jessica in "The Merchant of Venice" and Miranda in "The Tempest."

However, Miss Carey has had broad experience in contemporary plays also, appearing in such London successes as "The Romantic Young Lady" and "The Tempest."

Coming first to the United States four years ago to play with Miss Cowie in "Easy Virtue," the association with the star "book." Miss Carey has been appearing in company with Miss Cowie ever since in "The Road to Rome," "The Jealous Moon," "Pachel and Francesca," and in "Jenny."

Screen Shorts

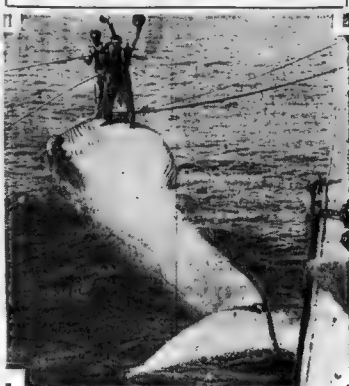

Herbert Brenon, who has been assigned the direction of "The Great Ideal" for RKO, has completed casting of the principal players, among whom are Douglas Fairbanks, Jr., Lorenia Young, Ralph Forbes, Loni Stanger, Don Alvarado, Paul McAllister and Otto Matsson. Forbes played an important part in "Beau Geste," a forerunner to the picture Brenon is making.

Work has begun on "Little Beau Peep," at the Metropolitan studios. It is the first of the new Educational series featuring Buster West and his father, John.

Themes for the second Lloyd Hamilton comedy for his latest Educational series will center around treasure-hunting and other kinds of current contacts.

Return appearance of Lucille Williams in Pathe comedies will mark her performance in "Breakfast in Bed," two-reeler which inaugurates the new Daphne Polare series.

Sea Monster on View Here

CAPTURED OFF THE CATALINA ISLANDS IN THE PACIFIC, ALMOE, the monster whale now being exhibited alongside the Mechanics Building, amazed officials of the Pacific Whaling Co. with its size.

GOSSIP ALONG RIALTO

New York, Sept. 23—Charles Dillingham places the Thompson Buchanan play, "As Good as New" in rehearsal today. The production is being made in association with the Erlanger Productions, Inc. The cast comprises Otto Kruger, Marjorie Catson, Jean Colbert, Ben Smith, Dorothy Leblond, Nan Sheldon, Lovella Shea, Gladys Houghton, Billy Quinn, Charles Mitchell, Walter Scott, Fred Lennox, John Parka, Ken Hovland, Eddie Lawrence and Walter Young. Earl Booth has been assigned to direct "As Good as New" for Mr. Dillingham.

This piece will open in Philadelphia on October 13 for a two-week engagement and will be seen in New York at an Erlanger theatre, to be announced later, following the engagement in the Quaker City.

"Not Yet," a farce adapted from the Viennese, will be presented in New York on Monday, October 6, by Harold Silver, formerly business manager of "Bachelors of the Bronx," "Room 99," "The House of Fear" and "Jerry for Short."

The play is to open out of town a week earlier. Miss Sylvia, Alden Chase and Sam Worn have been engaged for the cast of nine. Miss Sylvia is an international actress.

Humming Bird Makes Congenial Pet, Woman Finds

Sanbornville, N. H., Sept. 23—Mrs. Eliza Foss of this village is very proud of her "Robin-egg sized" pet, a humming bird, it is three years old. Mrs. Foss captured it from a cat when it was just learning to buzz before a blossom in her flower garden, and named it "Tweet."

Now it eats nothing about its prey. The bird is fed honey on a toothpick, a drop at a time.

These whose appearances have been mostly in foreign countries. She closed an out-of-town tour recently in the Shubert production of "Lily White."

Mr. Silver is only twenty-one and is one of the youngest producers to present plays on Broadway.

It seems that Chester Erskine's extreme caution is responsible for the postponement of his first production for the Frohman office, "Stepdaughters of War." Making his initial appearance as an impresario under such an august banner, he is more than ordinarily anxious to give the public a perfect presentation, or as nearly so as is humanly possible. And so he will take the next fortnight for further work on the play.

FAMOUS SHIPS IN FILM

Two of the most famous historic ships of the Pacific Coast are today doing duty at San Pedro as part of a motion picture set.

They are the Narwhal, famous whaler, former Arctic exploration ship, one time contraband runner from the Orient, and figure in hundreds of adventures, and the Lilly, known as the "Old Ironsides" of Nicaragua, captaincy of which almost lost her commander his citizenship recently.

They are moored at Terminal Island, as part of the setting in which "Dark Star," drama of the fisheries, is being filmed, with Marie Dressler and Wallace Beery in the principal roles.

The Lilly, famous revolutionist ship in Nicaragua, was confiscated as a rum runner in latter years and purchased. Because Nicaragua would not surrender her registry, William Collins, her captain, had to take out Nicaraguan sailing papers, which caused him considerable difficulty in regaining American citizenship.

"Mollie" Dialogue
Rolph Murphy, well known playwright, is collaborating with the Keweenaw on the drama for "Mollie," which will be produced by Charles Rogers. John Francis Dillon will direct the picture.

I used to make my own, too but WHY?

* Look for the Red, White and Blue Package

"EGG-NOODLES? Yes I used to make my own. But—"

One day, the grocer asked me to try MUELLER'S. I did—and I haven't made egg noodles since. MUELLER'S EGG NOODLES are every bit as delicious as the best I ever made. They cook up wonderfully light and fluffy, too.

So why should I spend time and labor making egg noodles when it's so much easier to keep a supply of MUELLER'S in the pantry?

Selected Ingredients

MUELLER'S EGG NOODLES are not only tasty—they are absolutely pure, as well. Only selected fresh eggs and a choice blend of flour are used in their manufacture. Not a particle of artificial coloring enters into them.

There are many delicious egg noodle recipes. Here is a popular one:

NOODLE RING

1 pkg. MUELLER'S WIDE EGG NOODLES; 5 eggs; 2 tbsp. butter; 5 tbsp. cream; 1 tsp. salt; 1/2 tsp. pepper; pimientos. Parboil noodles 1 min. in 4 qts. boiling water with 1 tbsp. salt. Drain. Heat 5 cups of cream, butter, cream, salt and pepper. Fold in beaten eggs, whites. Bake in greased ring mold, set in pan of hot water 30 min. Turn out on hot platter. Use creamed mushrooms, fish, diced chicken or meat for center of ring. Garnish with pimiento.

Many other appetizing dishes can be prepared with MUELLER'S EGG NOODLES—egg noodles au gratin, fried egg noodles, egg noodle soup, egg noodles with frankfurters, with suetknot, with spare ribs—there is the widest variety. With all of these, you will get the best results with the MUELLER brand.

Why not get a package, and try the recipe printed above? Your grocer has MUELLER'S, or can get it for you.

PALE DRY AND GOLDEN GINGER ALE

Always in good taste

DENNISOWINS RECORD FOR JOY HOPS

By GEORGE HANBLIN

All-time records for joy-hop flights at airports around Greater Boston have fallen to the hands of Airport Operating Co. It was revealed today by Hal Martin, operating manager.

During the past three weeks, more than 400 passengers have been taken up in the air in complete safety, and without so much as a flat tire in list as damage to the airplanes. More than 50 per cent of this tremendous total of air travelers were "first riders."

The reason for the big increase is the fact that short, snappy flights of not more than two minutes duration, are being sold at one dollar a copy. The two minutes is the time necessary to change loads of passengers.

Fairchild cabin monoplane and a Waco open cockpit, "uplans" are used for the work, with the latter selling for 50 cents more than the cabin job. Most of the flying is done with the Fairchild, with Joshua Crane, Jr., president of the company at the controls, while Walter Green, chief pilot, handles the Waco.

Passenger business during the week, ordinarily dated solely by student flying, has increased 100 per cent since the short rides have been in vogue, according to Martin.

SPEEDY FLANE.

"Better than half of the short riders return the same day or soon after with anyone from two to six friends to take flight," said Martin. "In addition, calls for special emergency flights up and down the shore line have taken a decided upward surge. We made no mistake when we started the dollar hop."

Groping in at Boston Airport from Springfield, George Zinn, Jr., of Philadelphia, who Harold Moon as passenger, showed field attaches the newest thing in Eastern Waco biplanes. The ship, powered with a Whirlwind Seven, 20-horse motor, had a top speed of 150 miles an hour, and cruises with two passengers at 125.

Zinn flies the ship for pleasure only, and is in Boston with Moon to show the boys how the ship performs.

NEW STUDENTS.

Aviation Corp. of New England through its president, Walter Green, signed up two new students in one day. The boys, both residents of Falmouth, where the home office of the company is located, are Al Wood and Ralph Smith.

Federal Inspector Bob Hoyt is spending one of his busiest visits to Boston, having been barraged with students seeking license tickets.

No less than fifteen pilots-to-be besieged Hoyt yesterday with a similar number on the books for today. Jimmy Chin, Curtis Wright's Chinese-Canadian student, will take his limited commercial examination late today.

Accused Motorman Has Second Accident

Lawrence, Sept. 23.—A few hours after he pleaded not guilty to manslaughter in connection with an accident by his street car, Albert E. McAllister, 27, of Massachusetts, who, North Andover, figured in another accident, the second victim of the street car.

Saturday night his car ran over Richard Blyers, two, of Water at Lawrence.

Last night his car struck Octave Pelvin, 55, of Bourque at North Andover.

Major Rockwell, of A. E. F., Dies in Paris

Paris, Sept. 23 (AP).—Dr. William Hayden Rockwell of Pittsfield, Vt., died suddenly last night in his Paris residence at the age of 62. He served as a major in the medical corps of the A. E. F. during the World War.

U. S. 1930 Bankruptcy Loss Is Placed at Billion

Chicago, Sept. 23 (AP).—William Fraser, president of the National Association of Credit Men, told directors of that organization today that America's loss through bankruptcy this year probably will be a billion dollars.

The annual loss has been approximately \$750,000,000 for the last several years, he said. "Judging from the increased rate of business failures, it will likely reach a billion for 1930."

"To this must be added the losses arising from many failures which never get into the bankruptcy courts. Even the richest nation in the world cannot go on making off such a tremendous had debt loss year after year."

Prince of Wales to Be Princess' Godfather

London, Sept. 23 (AP).—The Prince of Wales probably will be one of the godfathers at the christening of the infant Princess Margaret Rose, daughter of the Duke and Duchess of York. Unofficial reports today said the Archbishop of Canterbury probably would perform the ceremony which will be entirely private.

1030 at Holy Cross

Worcester, Sept. 23.—Holy Cross scholastic year opened yesterday with a registration of 1020 students including two from Manchuria. The freshmen class had an enrollment of 325.

KELVINATOR'S

latest and greatest
achievement....
the new YUKON model

\$159.50

F.O.B. FACTORY

YOU, Kelvinator presents the

new Yukon Model as the crown-

ing achievement of sixteen years of

leadership in electric refrigeration

development. Here is quality refrigeration

at the price countless thousands of

families have been waiting to pay.

The Yukon has real beauty—the beauty

of massive strength plus finely proportioned

design. The exterior finish, on rust proof steel, is special white enamel

—a Kelvinator development. Chrome

finish hardware harmonizes with the

cabinet design. Inside, the Yukon is

white porcelain, with all corners

rounded.

FIVE CUBIC FEET OF

FOOD STORAGE SPACE

There are five cubic feet of interior

space—over nine square feet of shelf

room—ice cube capacity of four

pounds at a freezing (42 generous sized

cubes).

Freezing speed is adjustable to five

positions, regulating the rate of freezing

in the preparation of all kinds of

frozen desserts and dainties. There is

a conveniently placed defrosting switch

and heavy glass defrosting pan.

You need not be a refrigeration expert

to realize that the new Yukon Model

is an amazing value. One look at its

substantial proportions, its gleaming

finish, the thickness of its heavy door,

the roominess of its interior—and you

will know that here is the electric

refrigerator you have been waiting to

buy, at the price you have wanted to

pay. You can get it today—come in.

Purchase of the New Yukon Model is made easy

by Kelvinator's RDCo Monthly Budget Plan.

Providing for convenient monthly payments.

ELEANOR GREEN AIDED BY MANY

The \$30 sent out by the Boston Evening American for the five-year-old child, Eleanor Green, whom fate has marked as doomed, has met with nation-wide response. Rosbury's "Little Soldier" has been assisted by readers all over the country.

Good Samaritans have made it possible for her last few days to be brightened by toys, as well as foodstuffs, and her childish thanks are sent out to the people who have been so generous through the Boston Evening American.

Menocal May Seek Cuba's Presidency

Havana, Sept. 23 (AP).—Published statements of Gen. Mario Menocal, Cuba's President for two terms between 1912 and 1921, were taken today to indicate that he may seek the presidency again in succession to Gen. Gerardo Machado.

Nature's Sex Determining Secret Is Revealed

Pasadena, Cal., Sept. 23 (AP).—A discovery indicating how nature determines whether sex shall be male or female was reported to the national academy of sciences today by Dr. Calvin E. Bridges of California Institute of Technology.

The method is a matter of balance between male and female elements in body cells, and differs from many scientific findings which credit sex control almost wholly to two specialized microscopic particles in bodily cells.

In Dr. Bridges' studies these two particles are not alone. They still exercise a large part of the control, but other particles which are known mainly to control other bodily characteristics, such as eye color and shape, also have a small degree of sex determination.

Dr. Bridges' work was done on fruit flies. His findings increase the complexity of controlling sex, making it appear more remote than ever man may learn how to fix in advance the sex of his children. The control particles are chromosomes, minute, threadlike bodies in cells, identified by many scientists in thousands of tests, as determining hereditary characteristics of plants and animals.

Chromosomes, given the names of X and Y, usually have been credited with determining sex by the

Boston's "Lucky Girl"

ONE OF THE MOST THRILLING SERIALS EVER WRITTEN by Hazel Livingston

Wife Accused by Chester as Hot Words Sizzle In Quarrel

WHAT HAS GONE BEFORE
Cathie Paige married her wealthy, elderly employer, Alfred Farnsworth. He is a kind and indulgent husband, but Cathie is lonely in the gloomy family mansion. Her footed Chinese servants, under the direction of Chung, have quarters in the basement, and a stolen automobile, in possession of unwholesome family secrets, has a room on the third floor.

Cathie depends upon the friendship of Gordon Moore, a business associate of her husband, Chester, Farnsworth's son, who hates Cathie, watches with malicious interest.

Lillian Hennessy, who once lived next door to the Paiges, tries to seduce Cathie some diamonds. Her manner is not particularly respectful and Cathie is sorry when Chester notices her.

NOW GO ON WITH THE STORY

CHAPTER 29

Cathie, thought Chester would have something to say about Lillian. She waited tense, after her husband came home, but nothing was said.

"Half my worries are imaginary," she decided. "I haven't done anything wrong." But her conscience troubled her because she was happy when she wasn't actually fretting.

So many things happened in the next few days. There was some money trouble with Chester, Farnsworth, always the indulgent father, suddenly put a stop to what he claimed was a stop to your extravagant. You live on your income, or you go to work!

"This is your doing!" Chester snarled, turning fiercely on Cathie. "I've seen it coming. You and your family of blood-suckers. I told you to lay off me—!"

Cathie Accused

"Chester! My boy!" Farnsworth cried, turning stricken eyes from one to the other. "Catherine, he doesn't know what he's saying."

"I damn well know what I'm saying. I'm going to say it, too. You little sneaking nobody, coming in here, taking advantage of an old man's weakness. I'll show you—"

"Stop!" Cathie screamed. "Stop, don't you see what you're doing to him? Alfred— sit down, dear—"

One look at his father and Chester Farnsworth was glad enough to stop. He stood with his sallow face working, staring at the older man.

"Why, what's the matter, dad? Look, Catherine—"

"Yes, and you're doing it, making a scene like that! Get some water or something. Oh, help me! Don't stand and look! He's going to faint!"

Mr. Farnsworth did not faint. He let himself be helped to a chair, and the color came back to his gray face when Chester poured some brandy down his throat.

Pleads for Peace

Cathie and Chester landed over him, she on one side, he on the other. Mr. Farnsworth opened his eyes, and said, "Get up! Get up! He's going to faint!"

Mr. Farnsworth did not faint. He let himself be helped to a chair, and the color came back to his gray face when Chester poured some brandy down his throat.

"All I have is yours—two for each share. Surely there is enough for both. Can't you try to be fair?"

Cathie began to cry. Mr. Farnsworth shook her. She hated Chester, hated him more than she had ever hated anyone in her life, more than she had thought it was possible to hate. And she couldn't even talk back to him without making more trouble for his poor father.

There, there, Catherine. It's all right," he said in his tired, old voice, stroking her hair, making her cry the harder.

"It's her filthy consciousness," he heard Chester say disgustedly. "The old man answered shortly and bitterly. She couldn't make out the words, she didn't even care. After a while Chung appeared and took him upstairs to bed. She would have remained in the room with Chester, too, as she had to move, but the old Chinaman made a hissing, chattering noise as he was going out of the door with her husband. She looked up and he signalled her to follow.

When she saw her husband coming to bed, and went to her

GREATER BOSTON NEWS

MAYOR BACKS SALTED DRY 'FARCE' VIEW

Tip on Plunge of Auto Vins \$25 Home to Aid His Party

Double Check on This Dog's License

BARBARA HAPENNY of Waltham isn't annoyed with warnings that have been sent out regarding dog's licenses. She has the official paper for her dog "Giggs." (Staff photo.)

DOG OWNERS IN LICENSE RUSH

As a result of a warning issued by Chief of Police Richard Curran of Waltham, there is a great scurrying of dog owners to obtain licenses for their pets.

Chief Curran has announced that within a few days he will prosecute in court every owner of an unlicensed dog, and in consequence Waltham residents are appearing at City Hall daily for the necessary papers.

One of the first to apply after the warning was issued were the parents of Barbara Hapenny of 355½ St. who thought Saturday was the dead line.

In a flutter of anxiety, Barbara's folks hurried to City Hall and obtained a license for Gigg, her all-time constant companion.

Truck Hit by Train at Waltham Station

A shifting passenger train at Waltham station of the B. & M. today struck an express truck unloading paper. The truck was driven by Matthew Ellsworth of Waltham and the train was in charge of Conductor I. Seward. No one was hurt.

C. Norman Lovell's Leg Amputated

C. Norman Lovell, of the firm of Lovell and Covel Chocolate Co. of Boston, is at the Brooke Hospital, Brookline, recuperating from a serious operation.

Last Friday, Lovell's right leg was amputated.

\$100 Weekly for News and Picture Tips

Do you want to get money for being alert? If so, the Boston American offers the opportunity. Each week \$100 in prizes will be given for news and picture tips telephoned in to the News Tip Editor, at Liberty 4000.

And what is a news tip? It's the information that some thing of interest to Greater Bostonians has taken place or will take place. Do you know, for instance, that an interesting picture is to be obtained, that an accident or an unusual event has happened, that there is going to be a business merger? That's

SPEED BRINGS DOLLARS TO READERS

Information on Pictures Can Boost Awards in Weekly Contest

Great is the variety of news listed today in the News Tips Editor's \$100 prize awards for last week's competition.

This proves better than anything else could that Boston Evening American readers know news when they see or hear it—news in every shape and form, hot news, news features and advance "tips" on what is going to happen.

But in one respect the News Tip Editor has a criticism to make. There are too few pictures being offered. Remember—he has offered \$2 for every photograph submitted and printed, and photos are of such news value these days that one might well win a capital prize.

Send in pictures "tips" if you can't send in pictures. But better still, telephones in your story and bring in your picture of it. And please remember, in everything connected with newspaper work—speed counts.

News going on in the prize awards is the News Tip Editor wishes his readers to scan a few lines of a letter written by James E. Goodwin, master sergeant, C. A. stationed at Fort Wright, N. Y. who got a thrill out of his prize, small though it was.

ACKNOWLEDGES AWARD

"This is in acknowledgment of check for \$25 reward for assistance in covering story concerning trouble on S. S. Express several weeks ago," writes Sgt. Goodwin.

"I have been on a trip and just returned to find your letter, for which I thank you."

"No reward was expected as I merely did my 'stuff' as a radio operator. Your man panned my outfit of sound slumber at \$15 a night, but having had a little newspaper experience on my recent five-year tour in the Hawaiian Islands, I know it's all in the game."

"I have a very high regard for all Mr. Hearst's papers because they speak the truth no matter where they dig up news. For example of what I mean, his recent episode about the pearl."

Now for the prize award. First prize, \$25, goes to Roy Maher of 142 West St., North Andover. For his "tip" on the automobile and driver that plowed 30 feet into Winchester reservoir. It was a good story.

Second prize, \$15, goes to Joseph Maher, a letter carrier, of the Huntington Ave. branch, who gave the "tip" on the boy caught and flogged.

Continued on Page 14, Column 2

SEN. DAVID I. WALSH, shown in his room at the Hotel Lenox after his arrival home yesterday. The senator was besieged with telephone calls from friends and party leaders. (Staff photo.)

Walsh Is Confident of Democratic Sweep

"The Democrats are going to win this year. There are tide in politics. There are years when only Republicans can win, and other years when only Democrats can win. That is what I mean by political tides, and this will be the tidal year for the Democrats in the Bay State. And the national outlook is also decidedly encouraging."

"The economic conditions and the wet issue are bound to be paramount issues in the gubernatorial campaign. Even old line Republicans are anxious to dispose of the wet issue one way or the other."

Senator Walsh conferred with party leaders last night at Hotel Lenox, arriving from Washington early in the day he hurried to his home in Clinton and reached Hotel Lenox at 4 p. m.

The senator was bronzed and his picture of health after his vacation in Cuba. He preferred to discuss conditions in Cuba rather than local politics.

"I would have much preferred to have said nothing about the Cuban situation on my return," said Senator Walsh. "But what I saw and heard during my stay of a week on the island made my blood boil. It was so incredible simply had to give vent to my feelings."

"My sole object is to help the people of Cuba who are entitled to our help and sympathy. Their position at present is deplorable. Back tyranny and dictatorship as that of Gerardo Machado, ex-President. I never heard of anywhere. He contrives the bread and milk. Imagine that."

David J. Gleason, Back from West, Dies

David J. Gleason, 23, employer for six years of the State Department of Administration and Finance, died yesterday at his home in Union Sq. for heart trouble.

There will be \$25 given weekly for the best or an unusual event news tip received, \$15 for the next best, \$10 for the next best, 25¢ for the next best, and \$5 for each of the 20 next most valuable tips. Of course, the first one who turns in the tip in an interesting event receives the award on that particular item. Anyone who is alive and alert can win.

FIREMEN AND POLICE BATTLE TO SAVE MAN FROM QUICKSANDS

TRAPPED IN BACKYARD BEFORE

Joel L. Pearson Unconscious When Dragged Out of Mire That Periled His Life

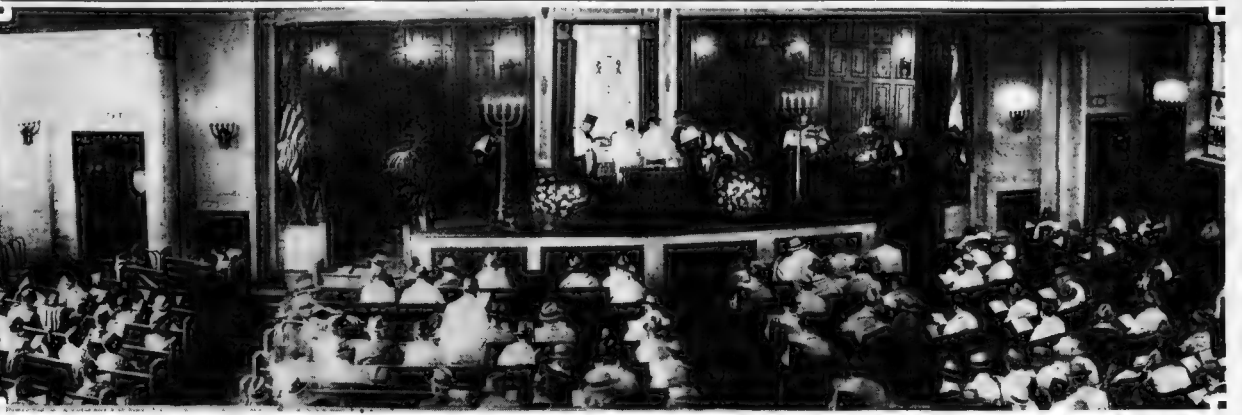

Caught in quicksand up to his armpits, Joel L. Pearson, 42, of 57 Alabua st., East Weymouth, was rescued in an unconscious condition today by police and firemen.

Pearson was digging in his backyard when he started to sink. His wife summoned help and Patrolman James Conner, who responded, held Pearson, but his strength, too, was slipping when a ladder truck arrived from Central fire station.

Under Capt. Henna Pratt the firemen placed a ladder across the section and held Pearson to safety. The quicksand area was eight feet in diameter and was not known to have been there.

A survey of the surrounding territory was made by firemen to prevent further sinkings. Pearson was reported suffering from shock.

Prayer Marks First Day of Jewish New Year 5691, in Kehillath Israel Synagogue, Brookline

THIS SOLEMN SCENE is typical of the observance throughout the country today. Services will be held tonight and continue through tomorrow until sundown. Sabbath eve services follow on Friday night.

In preparation for Saturday observance. Next Wednesday night the Kol-Nidre ceremony opens Yom Kippur. In this picture may be seen the leaders of Kehillath Israel, Joseph Rudnick presiding, assisted by

Simon Rogers, Cantor Fuchs, Sexton Stralovsky and Morris Rohmovich. Special services have been arranged so that persons in hospitals and children's institutions can share in the observance. (Staff photo.)

PRAYERS MARK HEBREW 5691

Rosh Hashana, the beginning of the year 5691 of the Hebrew calendar, was marked by synagogue services in the Kehillath Israel synagogue last night at sundown.

With the blowing of "Shofar," the call to people on the ram's horn, the services began. The prayer book was opened to a day of prayer and atonement.

An important element in the service was the reading of the prayer book by Rabbi Isaac H. Weiss, who presided.

At Kehillath Israel synagogue, Brookline, the ceremonies were in charge of Rabbi Isaac H. Weiss, president of the synagogue, assisted by Cantor Fuchs, Sexton Stralovsky and Morris Rohmovich.

Through the Associated Jewish Philanthropies, of which Louis E. Kierstein is president, special programs are arranged in hospitals and children's institutions. Y. M. H. A. and Y. W. H. A. and other organizations.

Rabbi Samuel J. Abramson was in charge of Temple Chabod Shalom, Brookline. Rabbi Benjamin Heller and Cantor Louis Glickstein officiated at Temple Beth El, Brookline.

Cantor Ben Plattner, of New York, officiated at Temple Israel, Brookline. Cantor R. H. Korbay, of New York, officiated at Temple Israel, Brookline.

Tonight evening services will be held in the synagogues and continue through tomorrow until sundown officially ends the first two days.

Friday night, Sabbath eve services will be held in preparation for Sabbath services tomorrow.

Sundown Wednesday night will open the Yom Kippur services with Kol-Nidre services, followed Thursday by the Ten Kippur services in the morning and the Yom Kippur services that ensue.

Greene-Price Wedding Oct. 11

John D. Greene, former editor of the Needham News and now a feature writer for King Features Syndicate, Inc., in New York, will marry Mary M. Price of Somerville.

The bride is the daughter of Mr. and Mrs. John J. Price of 18 Gilman st. The ceremony will be performed at a nuptial mass at 8 a. m. in St. Ann's church, Medford and Trinity st., Somerville.

The bride will live in New York following a honeymoon in the Berkshires and Adirondacks.

Miss Price was graduated from Rindge College in 1927. Greene was president of Northeastern high school class of 1921 during his sophomore year.

POLICE AT ODDS IN 'DRINK' CASE

Although an Arlington police sergeant contradicted testimony of a patrolman in East Cambridge district court today, Frank C. Friend of School st., Arlington, was found guilty of driving while under the influence of liquor and fined \$100 by Judge Arthur P. Stone.

Friend, arrested on Massachusetts ev. July 25, appeared and was released in \$200 for trial in superior court.

"If the defendant had had more drink, he would have been drunk," testified Patrolman Maurice J. Scandell, who made the arrest.

Mr. and Mrs. Harley Warren of Dunster lane, Winchester, testified Friend was driving in an erratic manner.

"I saw the defendant when he was brought to the police station, and saw nothing unusual about him and nothing to indicate he had been drinking," testified Sergeant Harold Pick.

Friend testified that he had not been drinking that day prior to his arrest, but that when he reached home he took a drink because he was excited.

Friend testified that he had not been drinking that day prior to his arrest, but that when he reached home he took a drink because he was excited.

Major Political Parties Are Set for Convention

By HERBERT J. DOHERTY
State convention plans of the two major political parties to be held in Boston Saturday, were well under way today.

The night-before "love feast" of the Democrats will be staged in Bradford Hotel, formerly Elks Hotel. Senator David I. Walsh and Democratic nominees for State of

and U. S. senator will be at a head table.

Senator Robert F. Wagner of New York and Mrs. Capper Whitely, prominent New York society leader, will be special guests. Friends will start at 7 p. m.

PLANK TO BE MET
Daniel R. W. Mordock of Everett is chairman of the banquet committee. The treasurer is Charles F. Chandler of Boston and the secretary is Francis X. Tyrrell of Chelsea.

Chairman Frank J. Donahue expects to be in a position to make permanent and temporary chairman of the convention as well as the nucleus of the important resolutions committee today.

The committee will function immediately after the banquet. After considering the various resolutions to be offered, the committee will proceed to draft the platform which, it is understood, will contain a well-known plank.

The Democratic convention will be held in Tremont Temple. Two years ago, the national platform was adopted without any question.

The Republican night-before banquet will be held in Copley Place.

CREDITORS FILE CHARGES

Complaining that Nassiushan, 301 East Waterdown, which is property of unknown persons, has been transferred to a creditor's petition, filed a creditor's petition against him in U. S. court today.

The petition sets forth that Nassiushan executed a chattel mortgage on the entire stock in Nassiushan and transferred his personal property with a four months preceding the filing of the creditor's petition.

The petitioners claim that Nassiushan was then insolvent for several months.

Two Painters Fall in Kneeland St.

Thomas Hurley, 25 of Chandler st., South End, and John Curran, 25 of Sheridan av., Medford, painters, were injured today when a scaffolding collapsed at 14 Kneeland st. At City Hospital Hurley was found to be suffering from chest injuries and Curran from concussion of the brain.

The keynote speech at the Republican convention will be delivered by Senator Simon Fess of Ohio, a bone dry.

Congressman Robert Luce, another dry, it is understood, is slated for chairmanship of the specific preference to the prohibitionists, however, it was learned, will be given recognition on the committee.

4 Sites Tentatively Picked for Brookline School

A move for a compromise in the Brookline school-golf links dispute, the sub-committee on buildings of the Brookline school committee today announced that four sites in Walnut at under discussion as a possible site for a school to replace the condemned Lincoln school.

The link is owned by Arthur W. Hickman, Town Treasurer. Albert P. Briggs, Daniel K. Snow, Boston banker, and Margaret Allen.

No inquiries of the owners have been made, the committee announced, but the question was discussed in a meeting of Francis A. Duggan, Richard C. Wood and Sidney T. Stirkland, preparatory to a report Monday night to the school committee.

The meeting followed protest by the school committee as a site for the new school.

Superintendent of Schools George C. Gallagher "lost" with the school committee and received several suggestions for temporary relief until the school building is erected.

The committee suggested that the school be moved to the site of the new school.

Juliet Wrong Names Count Consider Sharkey

Shrinking Violet Penalty of Fame Lining Up In It

Call Nobody Names and He Becomes Somebody

"What's in a name?" queries Juliet, if we remember our Shakespeare right. "That which we call a rose, by any other name would smell as sweet." You're young, Juliet, old girl, all right. "Names mean nothing," sneers Juliet. "Names do not name them." But they do, Old One! You and Juliet have the wrong slant. We objectively and positively refuse to agree with the pair of you. A name is a whole of a thing—some names. When they start calling you names, it means something. It means that you are somebody. As Amos says, they don't call nobody names now. Just for the fun of naming it, stop—Woo there!—and consider some of the names they call our Sharkey man—Jack Sharkey, whose tete-a-tete with Vittorio Marica caused in New York next Thursday night just now is filling the public press.

Jimmy Jennings names him "John the Bawl." Joe Williams nicknamed him "The Big I Man From Boston." Damon Runyon refers to him as "The Terrible Sharkey Man." We ourselves, old times were guilty of the "Garrulous Bob," the "Linguistic Lick" and "The Shrinking Violet of Chestnut Hill." Some of the boys up in this neck of Gen. Underwood the woods, anxious to carry favor with Sharkey, call him "The Square," or "The Square of Chestnut Hill." Proud of his being a decent, respectable, sedate family man and land owner, Jack likes to be called "The Square," particularly "The Square of Chestnut Hill." The name around this part of the terrain implies wealth and affluence and carries further a hint of refinement and respectability.

But those earlier names—John the Bawl, Big I Man, Garrulous Bob, Shrinking Violet—all meant something. When Jack Sharkey was plain Jack Sharkey, he was nobody. When the boys started calling names it meant he had become somebody. The name the boys started calling Jack was the sharkey name, and into the Sharkey's life and his box office value waxed and increased. When you get called names you are paying the penalty of fame.

To be a box office attraction you must inspire likes or dislikes. Sometimes a fellow can inspire both likes and dislikes to the extreme and become a super box office attraction, like Jack Dempsey.

Many of us loved Jack Dempsey for his remarkable fighting ability, his happy, genial ways and his showmanship. As many more, during the way and for some time after it, hated him for his alleged "slackerism." The charges of slackerism were unfounded and they were unjust, but the hatred they inspired against Dempsey increased his box office value tremendously.

No matter what they call you, want they say about you, get your name in the paper. That is a good opinion. It is a good axiom for anyone whose methods of making a living depend greatly on getting in and keeping in the public eye.

A TERRIBLE THING

Considering names, Charlie Chadwick, the old Yale tackle and district attorney, who used to write football for the newspapers, once started a story about a Yale star, whose father had been a hero before him, as near as we can remember, something like this:

"It is a great thing to have a name. Sometimes it is a terrible thing to have to live up to that name." The having to live up to a great name cost Young Bob Fitzsimmons, son of the immortal Pecked Bub, a brilliant ring career. Young Bob really was a most clever fighter, lightning fast and skilful. But the one thing which, because of his name, we can expect to find in him, his old man's terrible punch, Young Bob unfortunately did not possess even the faintest semblance of. Because Young Bob failed to show what they expected him to show, his illustrious father's wallow, the name immediately declared:

"Aw, son of the great Fitzsimmons, eh? Why, he can't fight a lick."

The father's thing about it was that the elder Fitzsimmons taught his son and centered all his efforts in teaching the lad how to clever, something the father never was. But one

CHARLEY CHADWICK, who looks like a real ball player with a chew in his mouth, has been hitting for a high average. Gelbert's work at short has filled a large gap in the St. Louis infield.

MACK WORRIED OVER EARNINGS

Philadelphia, Sept. 23 (AP).—Conchie Mack is a bit worried about the Philadelphia Athletics' chances in the World Series.

He has some misgivings about his pitching staff and is particularly worried about George Barnhart.

"I had one more pitcher. I mean one more dependable pitcher," Mack said today. "I think I'd be all right. I'm particularly worried about Barnhart. George hasn't looked like himself in the last few starts, and in addition, he hasn't recovered from being struck on the knee with a batted ball."

This series is going to be a mighty tough one for us to win. St. Louis must have a great ball club. They were 13 games behind on August 3—that shows how good they are. The Cardinals have a lot of pitchers and plenty of good batters. Another thing, the Cardinals are traveling well and they're back in the series at the very peak of their form."

The veteran point said the Athletics had coached their work on the western tip of the season and that they had not looked as good as they had in the past.

Mack and his Athletics planned to visit the Phillies park this afternoon for a "close-up" of the Cardinals.

Huskies Play G. E. Tomorrow Night

Northeastern soccer team will play a practice game with the General Electric Apprentice team at Lynn tomorrow night.

Although the Huskies have practiced under the lights on their home grounds they have never played a contest at night.

The Huskies will open their season with Bridgewater tomorrow, at Brockline, Saturday.

What the Stars Did

By the Associated Press.

MANUOSO, Cardinals: The Phillys' pitcher, who is a double and three strikes; drove in four runs and scored two.

BULL, Cubs: Held Braves to six hits and

Continued from First Page

Just when he needed an strokes, Jimmy made a five-footer for a birdie 3 on the 13th and then a remarkable putt, from nearly 70 feet, for another birdie on the 14th.

These two sensational holes added a tonic to the sturdy champion and he was never in danger thereafter.

Bobby Jones pulled the gallery and was among the first to congratulate the titlist on his courageous comeback.

The champion, Johnston, heading for the first round, had a score of qualifying, started his important second round with a par four at the first hole, his second shot was 15 feet from the cup and he took two strokes on the 15th and second, Johnston ran his third within five feet of the cup and holed out for a birdie four, as the small gallery accompanying him cheered.

Misses a Three at 10th Hole

Johnston missed a 3 at the 10th, when his approach putt from 30 feet slipped by the cup. He took his par 4.

His second at the 11th found a trap and he took three to reach the green and two putts for a 4 and one over par.

Johnston drove to a trap on the 12th and then was in another. He reached the green, 15 feet from the pin in 3 and took another 8 when his approach putt stopped an inch from a 3 over par.

The left him three over par for the round and made some excellent golf necessary for the rest of the journey to make his qualification certain.

Jimmy sent his tee shot at 13 a short 12th three feet from the pin and holed the putt for a birdie two his fourth hole of the round.

The champion was on the 14th with a 3 over par. He carried over the green, he putted from 15 feet and missed, taking six, two over par.

Putter Begins to Work Again

The champion's putter, an erratic instrument yesterday, appeared to be working well for the time being and his followers had high hopes of a comeback by his popular St. Paul star.

Jimmy took a par 3 at the 15th hole, where he almost bagged another birdie. His spoon shot from the tee was six feet from the hole, but he missed the putt by an inch.

Johnston drove in a trap at the 16th yard and barely got out. He missed the green in 2 and was 60 feet away with his fourth. He just missed his long approach putt, a walkway in an over par. This left him all even with par for 4 holes.

The champion drove in a creek at the fifth hole, the same hazard his tee shot found in the first round. He had to drop out with a penalty. His approach was a walkway in an over par. He putted from 15 feet and missed, taking six, two over par.

Reaches 15th With Drive

Jimmy reached the 15th green with a drive and a make. He putted for the right of the hole and was on in two. Two putts gave him a four and he was 15 feet from the hole.

He had to hole a six-foot putt at the 16th hole to get his par and total of 13. His approach over the green and he left himself a long putt. He missed it, however, without hesitation.

Johnston missed the gallery at the 15th and left the applause to the fans.

The crowd shouted out, 415 403 431—47 for a first, one over par.

Voigt Gets 78 for 154

George J. Voigt of New York, one of the big favorites to give Bobby

HAVE YOU NEGLECTED YOUR SCALP THIS SUMMER?

HOURS out in the sun... hours in the salt water... hours in the sand... have most likely taken their toll from your scalp. Men come to us complaining of dryness of the scalp, itching, excessive dandruff, and other scalp disorders, which are due to neglect during the summer.

Take care of your hair! Fastidious men realize the importance of a scalp examination after a summer's exposure. They realize the dangers of an abnormally dry scalp, of brittle, falling hair, of dandruff, and of approaching baldness.

We suggest that you allow our specialists to make a scientific examination of your scalp, without cost or obligation.

The Thomas System, famous from coast to coast, have been successful in treating various types of scalp disorders and restoring a normal growth of healthy hair. Come in and talk it over with our skilled trichologists. If we cannot benefit your particular scalp, we will frankly tell you so.

HOW MUCH?
E. D. Lynn—I want to thank you for past ad-

Ans.—Associated Gas & Electric Class "A" has paid dividends of 50 cents a share quarterly since May, 1925. In lieu of cash stockholders can take 1-40 share Class "A." The stock has equal participating rights with the common after payment on the common stocks of quarterly dividends equal to the aggregate quarterly priority dividend on Class "A." February, 1930, stock-

holders received 40 cents extra, or 2-125 shares Class "A." Net profits in 1929 equalled \$3.64 a share, compared with \$4.31 in 1928 and \$5.75 in 1927. Whether you should buy the stock, however, depends on the securities you already own, and the amount you intend to spend.

NO ADVICE

C. G. Boston—I own Crocker-Wheeler at 38. What do you think of the possibilities for it?

Ans.—If you mean fluctuations, we must decline to venture an opinion. No one can know more about future prices than the next fellow. Though dividends were paid from 1891 to 1925 on Crocker-Wheeler old stock, an initial payment has yet to be inaugurated on the present issue, a ten-cent split in September, 1929. To that extent it is a speculation. At recent levels it was considerably under the price you paid.

dividends equal to the aggregate quarterly priority dividend on Class "A." February, 1936, stockholders received 40 cents extra, or 2-125 shares Class "A." The Hearst Papers Advocate

1. "Harvest friendship with all nations—entangling alliances with none," as advocated by George Washington.
2. Proportional representation in the United States Senate—no State to have less than two Senators.
3. Separate department of Army and Navy and Air Forces united under department of National Defense.
4. Vigorous Federal action, under a Secretary of Education, to abolish illiteracy in the United States.
5. Installation of President and of Congress on first of January following election in November.
6. A Federal sales tax, the income from which to be used in reducing other Federal taxation.
7. A calendar year of thirteen months of four weeks each; all holidays to fall on Saturdays.
8. Construction of Nicaragua Canal for commerce and defense; advocated by Hearst's papers since 1895.
9. The acquisition of the French and English West Indies as part payment for the debt due to the United States.
10. Selective immigration to admit only those suited for American citizenship.
11. Deportation of undesirable aliens.
12. Complete publicity for income taxes.

Bear That Sells Like a Man

One Thing to Deal With Little Wheat Gambler, Another to Deal With the Russian Government

Kipling in the old days warned his fellow countrymen against Russia, "The bear that walks like a man." That was a difficult, unpleasant bear to meet. You might as well meet at large, Shakespeare's "wretched, bloody and usurping bear, that spoils you summer fields," as meet the Russian bear, in the wheat market.

He sells 5,000,000 bushels of wheat short as calmly as you'd sell a lollipop. He's a new and strange gambling unit, and our native bear, Wall Street born, dark and gloomy, hopes for the best, but won't get it.

The American farmer is accustomed to short selling by the home bear speculator.

But when it comes to a Muscovite bear, that's too much. Mr. Hyde, Secretary of Agriculture, says it's an outrage, and President Hoover is asked to do something about it.

Good Americans, just now speculating in wheat, on the long side, want to know why the President doesn't buy 100,000,000 bushels of wheat, using the \$500,000,000 put aside for the purpose, thus ruining the Russian bear by making him cover at a terrible loss.

The wheat speculator says:

"The United States can buy ten bushels of wheat to one bushel the Soviet Government can afford to sell. Buy the Soviets into such a hole that it would take all their millions to get them out of it."

One irritated American speculator on the bull side asks what Secretary Hyde has the Farm Board for, except to see that the price of wheat is kept right. What better use for the \$500,000,000 capital than to make ten or fifteen millions more, by keeping the price of wheat up, and squeezing the Soviet short seller?

The annoyed bull even asks: "Who said President Hoover is a business man?"

We say he would NOT be a business man, if he tried to squeeze Russia on her short sales of wheat by gambling against Russia.

Uncle Sam did that foolish thing last Spring, bought tens of millions of bushels above a dollar. Look at wheat now, around eighty cents.

Hoover is enough of a business man to know that you can't squeeze Russian short sellers of wheat, AS LONG AS THOSE SHORT SELLERS HAVE THE WHEAT TO DELIVER.

Suppose Russia did sell wheat short at 82 cents, and Uncle Sam forced the price up to \$1.10. Russia would cheerfully deliver from her gigantic supplies the five million bushels of wheat sold short, and then proceed to sell the rest of her surplus at the boom price, buying back later whatever she might need, when the artificial boom collapsed.

It is one thing to deal with a little wheat gambler, another thing to deal with the intelligent Russian Government, that has proved its ability to raise BILLIONS in real money.

Rosh Hashonah

Jewish New Year—5691.

"L'Shanah Tovah Tikomevu."

It is the Jewish greeting of their new year—5691. Not the casual "Happy New Year," which rolls off the glib tongue meaninglessly.

Deeply solemn, it is:

"May you be inscribed in the Book of Life for a good year."

From their season of sorrow and solace they look upon the world with troubled eyes.

Their brethren are persecuted by the Arabs. Immigration and the right of worship, though occasionally departing from violence in Poland. Pogroms in Rumania. Starvation in Austria. In Russia no Jewish pogroms since the Czar departed, but there they suffer with other religious the common effort to uproot the church and religious teachings.

Here in America intolerance snaps at them, but steadily with less frequency, we are glad to say. The bark of bigotry long since became worse than its bite. In a country which means to have religious tolerance, though occasionally departing from it, they have had their greatest, enduring economic progress.

On their Rosh Hashonah, time of meditation and hopefulness, we of Boston can unite in a message of friendly greeting suitable to the dignity and history of their race.

Big Building Figures

\$15,000,000 for New England

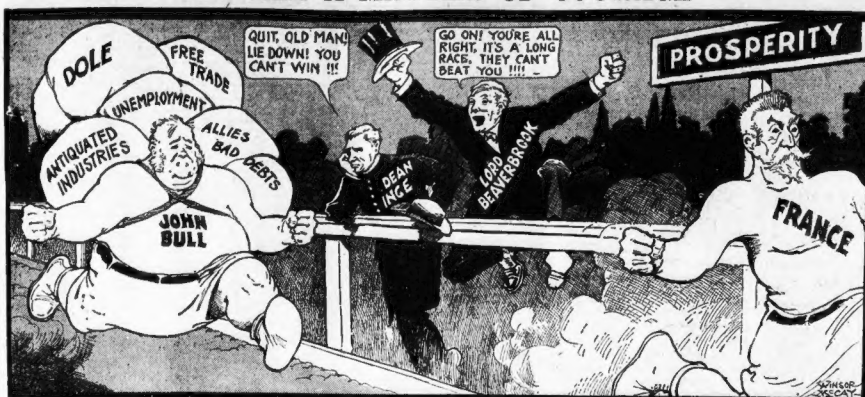

Good news of better times.

New building contracts awarded in New England last week totaled \$15,000,000.

It is an all-time record for the week, surpassing by \$5,000,000 the high-water mark of 1926, by \$5,000,000 the contracts of last year and leaving all other records for the similar period far behind.

Bank deposits increase in New York, like our own. That, too, is reassuring, because our mutual trade with the Empire State is one of our strongest assets.

IT'S ALL A MATTER OF COURAGE

This shows the British Empire's struggle to survive.

What will be the destiny of the British Empire? Will it expand, grow, defy its enemies, conquer its internal troubles? Or will it crumble, as all empires of the past have crumbled, new empires starting from the crumb?

Dean Inge, one of the frankest, most intelligent of Britishers, a little lacking in aggressive courage, perhaps, is doubly gloomy concerning the empire. In his book, "The Social Teaching of the Church," he says:

"We English people see our empire breaking up, our naval supremacy gone, our main industries rotting, our working population living on doles, and the sun of our prosperity manifestly setting in cloud."

However, there's another kind of Britisher, Lord Beaverbrook, for instance, lacking Dean Inge's hollow-cheeks, "nickled over with the pale cast of thought."

Beaverbrook has a round cheek, plenty of thought, but no "pale cast," to it.

He began with heavier handicaps than any British Empire has to deal with now. He succeeded in spite of them, and the British Government can do the same, if it will.

Lord Beaverbrook knows that power is in the human brain, not in this little difficulty, or that complication.

Conditions as we see them mean nothing, for

trade inside the empire, we have nothing to fear, everything to hope for, and the certainty of prosperity and power, hitherto undreamed of."

It is interesting to contrast these two British types, as shown in the cartoon adjoining.

Mother Britain may be grateful that she has for children her vigorous, young dominions.

Canada, Australia, South Africa, will continue sending men to the mother country, as Canada sent Lord Beaverbrook.

He earned his welcome by hard work during the war, and built up a great fortune with his left hand, while running newspapers and public opinion with his right hand.

He began with heavier handicaps than any British Empire has to deal with now. He succeeded in spite of them, and the British Government can do the same, if it will.

Lord Beaverbrook knows that power is in the human brain, not in this little difficulty, or that complication.

Conditions as we see them mean nothing, for

Despair says: "Give up." Courage says: "Go on."

They change like the strange patterns in a kaleidoscope.

Dean Inge, and other Britishers, inclined to the gloomy side, having lived easily all their lives, well educated, but not well INFORMED, should bear in mind a text, of which the Dean is fond, and keep it written up where they can see it every day:

"We look not at the things that are seen, but at the things that are not seen. For the things that are seen are temporal; the things that are not seen are eternal."

Eternal things, not seen, are courage, hope, mental power, willingness to fight for right, and among other things, for your own rights.

One of "things seen" that make the gloomy Dean still gloomier is the dole, result of the great war in which England financed all Europe.

But Courage outwits all things visible.

Dean Inge's book, "The Social Teaching of the Church," will interest all clergymen, and many others, but is not recommended for general reading.

A great intellectual power is Dean Inge. If you could inject Lord Beaverbrook's unconquerable optimism into half a dozen like Inge, what a nation Britain would be.

HERE'S A NEW BEAR

Hold everything, there's a new one loose. He's a bear on WHEAT, and a bear by NATURE. And, worst of all, he's the first short seller on record that can deliver what he sells.

What are you going to do about this? What can you do? For mercy's sake read the editorial adjoining—"The Bear that sells like a man."

H. G. Wells Writes on "Science of Life"

IN COLLABORATION WITH PROF. JULIAN HUXLEY AND G. P. WELLS

Continued from Yesterday.

IN THE second case the twins are really parts of the same zygote, with the same chromosome-constitution—hence, their close resemblance to one another, and, since sex is a Mendelian character, hence their identity of sex.

Once the underlying chromosomal mechanism of sex-determination had been understood, the remarkable fact that in most animals the two sexes are produced in roughly equal numbers was explained. Huxley had

been entirely mysterious.

But since one sex produces equal numbers of male-determining and female-determining genes, and the gametes of the other are all alike, it follows that in the long run the offspring must be male and female in about the same proportion.

This equal ratio may be upset, however, by various influences. One sex, for example, may be less resistant than the other. In man, for instance, more males die than females; the difference is greatest in early life, but continues up to old age.

The result is that old women outnumber old men; among people over seventy in England there are roughly three women to every two men. That this is a constitutional difference shows

by its being even more pronounced before than after birth. In the United Kingdom, the proportion of male to female deaths before birth is about 120 to 100; for still-births it is 135 to 100, and for the first year of life it is down to about 120 boys to 100 girls. And just the same happens in other mammals, such as cattle.

The probable explanation of this lesser constitutional resistance of the male mammal is also concerned with his sex-chromosome. As he has only one X, any recessive sex-linked genes will show their effects at once in males, while in females they will often be masked by the effect of dominant partners.

What Do You Know?

BOSTON'S ORIGINAL KNOWLEDGE TEST

Do you know:

- 1—Into what Gulf does the Colorado river flow?
- 2—What is the characteristic of the Angora cat?
- 3—What was a bounty jumper in the Civil War?
- 4—What does the expression "pol polli" mean?
- 5—How did the flower vixen get its name?
- 6—Equate.
- 7—Nefarious.
- 8—Euphony.
- 9—Vogue.
- 10—Opportunity.
- 11—Copenhagen is a seaport of

- 12—Antilles is used in making—
- 13—A boulevard is a broad—
- 14—Charlybide is a— on the coast of Sicily.
- 15—Exegesis is the— of the Scriptures.

Answers to today's test:

- 1—Gulf of California.
- 2—Long silky hair.
- 3—One who enlisted to get bounty and then deserted.
- 4—The masses; populace.
- 5—From the American anatomist, Caspar Wistar (1781-1821).
- 6—Uniform.
- 7—Criminal.
- 8—Dys.
- 9—15-Avenue.
- 10—Whit.
- 11—Critical explanation.

New York Day by Day

By O. O. McIntyre

NEW YORK, Sept. 23—Broadway's underworld believes: The silent live longer! Garrulity is supposed inevitably to end with the quick bark of a pistol. Yet three of the tightest-tipped racketeers moving furiously in the Tenderloin shadows were assassinated.

Arnold Rothstein was a paragon of reticence. Even with intimates he was monosyllabic; pragmatic. No one had his confidence, and in the public he always sat with his back to the wall. A bodyguard near by. "They plugged me through the chest and the guts," he gasped in the ambulance. "I never revealed identity of them."

Frankie Marlowe was similarly silent. So was the doctor Harry Block. Yet their uncommunicative tongues were further stilled by ambush shots. Indeed, their skulking activity seemed to attract attention. To inspire a gangland horror they knew too much!

Al Capone appears constantly talking. And lives. Most gangsters are swaggering braggarts, and, considering their enormous nung but a small percentage meet violent deaths. The killings are rarely courageous. The victim is usually trapped alone—peppered with machine bullets from a speeding car.

In other gangland days, toughs met by appointment and shot it out from both hips. They were not primed with dope and booze, but got drunk afterward in celebration. Kit Twist, Humphrey Jackson, Big Jack Zelle, Spanish Johnny, Little Augie and all the rest were gangsters, but not snails.

Bootleg racketeers generally get their start in the bootlegging racket. He was in a basement speakeasy when he received one of his messages to duck. He did not stop for baggage, but went directly to Grand Central and waited for the first train westward. He was last heard from in Singapore.

The murderous gangster has strong home ties and a misty-eyed sentimentality for wife, children and parents. In the Sweet Papa Bell he is distinguished for his proclivities and helping a pal. He has been influenced by the Broadway credo work is for a sap.

Gallipoli, O. which was glorified in "The Great War," claims a break in Kenyon Nicholson's corking drama, "Torch Song." The promise is in Cincinnati, but the rest of the locale is Pomponoy, O., where a soiled lady exclaims: "I was a line—still anything is something these lean days."

One of the play's characters is a shuffling, baggy-crowned porter in a small town hotel. He is known by the hilarious title of "Droopy Drawer."

But the line topping me into the aisle was that of a hard-shelled traveling salesman with a terrific hangover, who, when asked if he did not want a morning's morning, moaned: "It's just as soon have a glass of warm fish!"

On Lexington ave. a cafe, bless its enterprising little heart, advertises: "Your coffee will be served along with your meals here without the slightest argument."

And right in the midst of this a visitor drops in and apropos of nothing, remarks that no one's tastes so elegant as a leftover bowl of creamed peas from the kitchen at midnight. And it took a large-sized desk blotter to mop up the mess.

The long dinner table in private homes is being supplanted by smaller tables for four in the manner of bridge parties.

Instead of pointed and studied efforts conversation begins immediately to bust.

One of my minor ambitions is to snare up and sack a gang of workmen who they are stalling by.

New York street and street away on a kiddie car before they tell me, of course, they will, they haven't the slightest idea.

When I asked him one day why he wasn't ferreting out the who's who of apartment house. "Perhaps," he suggested naively, "they are mad at it."

Trade last from Variety: "Me, I don't have a hum!" At last, the crooning columnist (column, 1122, September 23, 1930).
